BEYOND THE LIMITS

 **DYNAMICNORD**

GERMAN ENGINEERING. FOR MODERN SCUBA

Our STORY

Founded in Germany in 2018 with a clear belief:
Diving equipment must evolve as fast as the world.

No shortcuts. No compromise.
No legacy limitations.

Our ENGINEERING

German precision meets real underwater testing.
Proven comfort, control and durability.
Each product is engineered to perform beyond the
expected.

Our COMMITMENT

Sustainably developed and durably designed.
Reduced environmental impact.
Recycled and responsible materials.
Built for ocean demand. Built for partnership.

- ✓ Reliable after-sales service.
- ✓ Distributor support worldwide.
- ✓ Structured for partnership.

DYNAMICNORD

With you at every challenge.
#redefiningscuba

ENGINEERED FOR **REAL DIVING**

Built by divers.
Tested where it matters most.

INNOVATION PHILOSOPHY

Function **before everything.**

Every product is designed with a clear goal to deliver reliability, comfort, and freedom of movement underwater.

Functional Engineering

Designed around real diving needs.

Underwater Testing

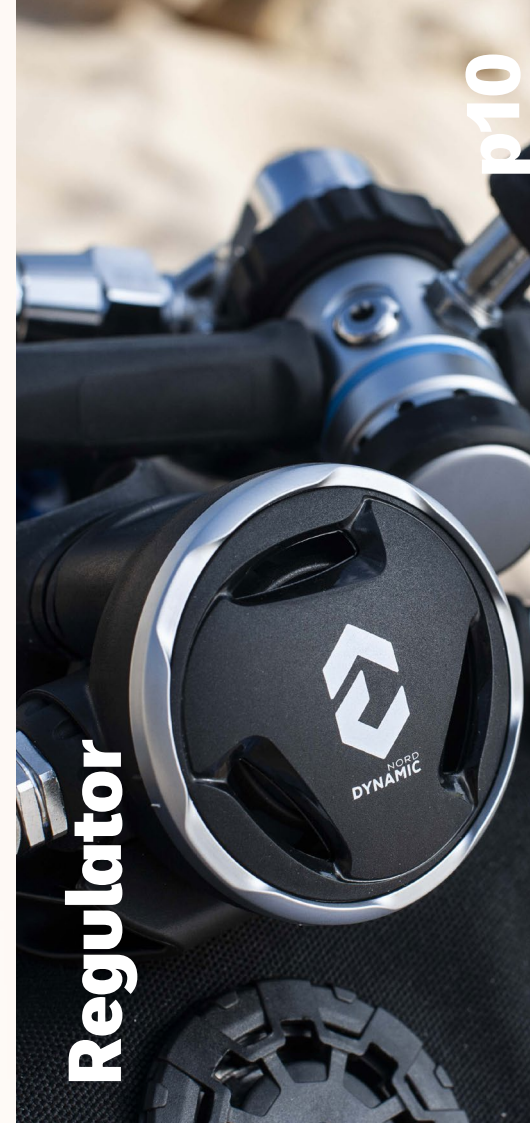

Tested in real dive environments.

Freedom of Movement

Protection without restricting mobility.

Performance is proven underwater
Not just in the lab.

PERFORMANCE
WITH PURPOSE

Regulators

PRECISION AIR DELIVERY

Built for control, reliability and performance in every dive.

BALANCED PERFORMANCE

Smooth airflow & natural breathing at any depth, powered by our advanced balanced and unbalanced system.

WIDE EXHAUST DESIGN

Enlarged exhaust channels reduce back pressure for a more effortless exhale and greater overall comfort.

BUBBLE DEFLECTOR

Directs bubbles to the side to keep your view clear and your focus where it belongs.

OPTIMIZED EFFICIENCY

Lower breathing resistance means less fatigue and more time enjoying the dive.

BUILT TO LAST

High-quality, corrosion resistant materials built to perform in the harshest conditions.

EASY TO SERVICE

Designed for straightforward disassembly & servicing to keep your regulator ready for every adventure.

TESTED, TRUSTED

Rigorously tested in real diving conditions to deliver dependable performance when it matters most.

Performance you can trust. Dive after dive.

Innovation you can rely on.

Regulator TR-80 THE TEC REGULATOR

ENGINEERED FOR CONTROL.
BUILT FOR REAL CONDITIONS.

The TR-80 is built for divers who demand total control and maximum reliability. Built for adventure, exploration, and high-performance diving, it gives you the confidence to go further, stay longer, and take on every challenge underwater.

1ST STAGE

BALANCED DIAPHRAGM SYSTEM

Delivers consistent, reliable air supply at any depth

COMPENSATED DRY DESIGN

Membrane compensated with dry sealing. Minimizes cold transfer and delays freezing on the surface and during the dive

COLD WATER READY

Built to perform reliably in the most extreme conditions

MULTIPLE PORTS

4 LP Ports
2 HP Ports

HIGH PRESSURE OPTIONS

300 BAR DIN Version
232 BAR INT Version

DIN (300 BAR)

INT (232 BAR)

2ND STAGE

VENTURI CONTROL SYSTEM

Adjustable switch (Dive/Pre-Dive) to prevent free-flow on the surface and reduce inhalation effort during the dive

BREATHING ADJUSTMENT KNOB

Fine-tune inhalation resistance for your personal comfort

COMFORT MOUTHPIECE

High-grade silicone for long dive comfort and reduced jaw fatigue

WEIGHT

1st Stage Din – 704 Grams
Yoke – 872 Grams

2nd Stage
245 Grams

BUILT FOR REAL CONDITIONS

Solid brass body, sandblasted with matt chrome finish for superior durability & corrosion resistance

CUSTOMIZED COMFORT

Adjustable Venturi and breathing knob let you fine-tune your perfect inhale

WIDE EXHAUST DESIGN

Exhaust valve and cover offer minimal resistance for easy, natural exhalation

LIGHTWEIGHT & BALANCED

Streamlined design reduces fatigue without compromising on strength

Made in ITALY

SIGNATURE TECHNOLOGIES

FRONT COVER CONTROL SYSTEM

PREVENTS FREE-FLOW IN STRONG CURRENTS.

Special front cover design with no direct water entry. Ensures stable, controlled performance even in:

- ✓ Strong Currents
- ✓ Scooter Diving
- ✓ Surface Waves

WHERE OTHERS FAIL, THIS STAYS CONTROLLED.

ADVANCED BUBBLE DEFLECTOR

CLEAR VISION. LOWER BREATHING EFFORT.

- ✓ Redirects bubbles away from the diver's field of view
- ✓ Enlarged exhalation membrane reduces exhalation resistance
- ✓ Ideal for underwater photography and videography

NOT JUST VISIBILITY. REAL PERFORMANCE ADVANTAGE.

CS-30

BCD's

ENGINEERED GRIP.

BUILT FOR CONTROL.

Innovations that deliver true stability, comfort and confidence in every dive.

EXTENDED GRIP BACKPLATE

Our backplate is longer and wider than standard BCDs, with a rubber padded surface that creates more grip on the cylinder for unmatched stability and control.

SECURE TANK HOLD

Stainless steel buckle on tank strap for a strong, corrosion-resistant hold.

SMART STORAGE

Integrated cummerbund pocket and two side pockets for convenient gear access.

GEAR READY

Six D-rings for flexible attachment and better gear organization.

NON-SLIP SUPPORT

Rubber backplate surface enhances grip and keeps the tank securely in place.

NEW WEIGHT POCKETS

Designed for easy insertion and secure fastening.

QUICK RELEASE

One-handed quick-release system for emergencies.

EASY WEIGHT HANDLING

Bigger handle on non-ditchable weights for faster and easier removal.

BUILT TO LAST

High-quality materials and rugged construction for years of dependable use.

Better Stability. More Control. Total Confidence.

Innovation you can rely on.

Buoyancy Control Device

RBC-40

ENGINEERED FOR STABILITY.
BUILT FOR CONTROL.

Built for performance and reliability, the RBC-40 combines durable materials with smart design to deliver comfort, control, and confidence in every dive.

CORE FEATURES

420 & 840 DENIER NYLON COMBINED
Exceptional durability with resistant to scuffing.

STAINLESS STEEL TANK BAND
Strong and corrosion-resistant for secure tank hold.

2 UTILITY POCKETS W/ 1-WAY ZIPPER
Convenient storage with smooth, secure access.

INTEGRATED WEIGHT SYSTEM
Streamlined design for better balance and comfort.

6 STAINLESS STEEL + 2 PLASTIC D-RING
Multiple attachment points for your gear.

CONTROLLER INFLATION SYSTEM
Smooth and responsive air control.

FLAT DUMP VALVE SYSTEM
Efficient and controlled air release.

KNIFE ATTACHMENT
Built-in attachment point for added safety.

PERFORMANCE & COMFORT

HIGH-LIFT BLADDER DESIGN
Strong lift capacity for stable buoyancy.

ROLLED COLLAR DESIGN
Comfortable neck fit for extended dives.

ERGONOMIC ABDOMINAL FIT
Secure and balanced positioning underwater.

NON-SLIP TANK SUPPORT SURFACE
Improved grip and stability during the dive.

EASY SIZE ADJUSTMENT
Shoulder buckles for a perfect fit.

Made in ITALY

AVAILABLE COLOR
BLACK / BLUE

KEY HIGHLIGHTS

HYDROPHOBIC CONSTRUCTION
Water-repellent materials resist saturation for a lighter, quicker dry.

PADDED FOR COMFORT & PROTECTION
Strategically placed padding adds comfort and protects your back.

ADJUSTABLE CUMMERBUND
Provides a secure, customized fit and keeps the tank stable in any position.

SMART FUNCTIONAL DETAILS

D-RINGS
Stainless steel D-rings for reliable gear attachment.

POWER INFLATOR SYSTEM
Delivers controlled air at any depth for stable buoyancy.

FLAT DUMP VALVE SYSTEM
Fast deflation via inflator pull mechanism.

PADDED BACKPLATE
Enhanced grip and durability for maximum stability of cylinder.

ADJUSTABLE CUMMERBUND
Secure, comfortable fit that keeps your tank in place.

EASY WEIGHT HANDLING
Bigger handle on detachable weights for faster and easier removal.

DITCHABLE WEIGHT SYSTEM
9 kgs / 20 lb with quick-release removal.

FIXED WEIGHT SYSTEM
4.4 kgs / 9.7 lb for trim and balance.

MORE STABILITY

Better tank control with less movement.

MORE COMFORT

Designed for longer, enjoyable dives.

MORE CONVENIENCE

Smart features that make diving easier.

MORE CONFIDENCE

Built for safety and peace of mind.

Sizechart
BCDs

We recommend choosing your BCD size with your wetsuit on. If the BCD is too tight, it will compress the body and rib cage, making breathing difficult. If it is too wide, it will give you problems, as your tank will "dance" and affect your buoyancy and control. You must check that the abdominal belt closes perfectly and without difficulty, it is important that the two parts are joined comfortably and fully in its extension.

CLEAR DISPLAY
With backlight and bar graphs

AUDIBLE & VISUAL ALARMS
For added safety

LONG-LASTING BATTERY
Up to 300 hours of diving

ADDITIONAL FEATURES

REPLACEABLE BATTERY

CR2450 lithium battery (INPUT 3V – 0.5mA)
Up to 300 hours of diving

ALTITUDE & TEMPERATURE

Displays current altitude and temperature for smarter dives

SMART LOGGING

Records dive data every 15s, 30s, 45s, or 60s

Audible & Visual Alarms

Long Lasting Battery

Compact & Lightweight

Easy To Use

Bluetooth Connectivity

designed
engineered
in germany

MODULAR CONSOLE SYSTEM

One computer. Multiple configurations.

Easily remove the CDC-30 and swap it with a pressure gauge (sold separately) on the same strap.

Switch your console. Adapt to your dive.

Instruments

SPG-1 SERIES

RELIABLE PRESSURE.
ESSENTIAL BY DESIGN.

Compact, tough, and easy to read. The SPG-1 series pressure gauges deliver accurate air pressure readings you can trust, dive after dive.

YOUR INDISPENSABLE COMPANION.

The compact SPG-1 pressure gauge reliably displays your air pressure.

CORE FEATURES

CLEAR DISPLAY
Easy-to-read dial for quick pressure checks.

LUMINOUS DIAL
Glow-in-the-dark dial for clear underwater navigation in low-light conditions.

TEMPERED GLASS
High resistance to impact and scratches.

UNIVERSAL CONNECTION
Industry-standard 7/16"-20 UNF thread for wide compatibility.

CHOOSE YOUR DISPLAY

SAME RELIABILITY. YOUR PREFERENCE.

ST-300

STAINLESS STEEL

DIVING WATCH

BE STYLISH. BE COOL. DIVE IN.

The ST-300 is your go-anywhere watch, built for adventure and designed for everyday use. With a scratch-resistant sapphire crystal and bold design, it's ready for every moment above or below the surface.

CORE FEATURES

- 316L STAINLESS STEEL CONSTRUCTION**
Scratch-resistant surface for lasting clarity.
- SAPPHIRE CRYSTAL GLASS**
High resistance to wear and fading.
- SCREWED CROWN (2 O'CLOCK)**
Japanese Miyota 8215 for reliable performance.
- DATE WINDOW (6 O'CLOCK)**
Secure sealing for enhanced water resistance.
- JAPANESE MIYOTA 2315 (CITIZEN) QUARTZ MOVEMENT**
Accurate and dependable timekeeping.
- ROTATING BEZEL WITH LUMINOUS MARKING**
For precise dive timing and visibility.

PERFORMANCE & RELIABILITY

- 100M WATER RESISTANCE**
Ready for swimming, snorkeling and more.
- LUMINOUS HANDS & MARKERS**
Clear readability in low-light conditions.
- SCREWED CASE BACK**
Protects movement for long-term reliability.
- LIGHTWEIGHT DESIGN**
Comfortable for all-day wear.

DRYSUITS

Technical Drysuit

RS-SERIES

RS 351 & RS 352

ENGINEERED FOR COMFORT.
BUILT FOR PERFORMANCE.

The RS-351 is a rugged and reliable drysuit built with advanced anti-tear technology for maximum durability, freedom of movement and protection for every dive.

CORE FEATURES

RAIZO RIPSTOP ANTI-TEAR FABRIC

350 g/m² ripstop fabric for excellent durability, tear resistance and longevity.

FREEDOM OF MOVEMENT

Special pattern design ensures complete freedom of movement and prevents excess air from getting inside the suit.

T-ZIP FRONT ENTRY

T-zipper protected by a flap from the shoulder to the hip.

HIGH INFLATOR & EXHAUST VALVES

High-performance rotating valves for precise buoyancy control. Exhaust valve is adjustable according to dive profile.

UPGRADE READY

Inflation valve can be upgraded with a heating system for electrically heated undergarments.

TWO DETACHABLE BIG POCKETS

Two large pockets can be fitted using the multi-purpose Molle system. Different pockets can be placed based on usage.

ZIP COVER WITH VELCRO

Protects the zipper and prevents snagging.

ADDITIONAL FEATURES

NECK SEAL

3mm neoprene neck seal made of soft neoprene and gives additional thermal protection in neck area.

8MM NEOPRENE HOOD

8mm neoprene hood with an escape system keeps your head warm and comfortable.

DRY WRIST SEALS

HD bottlenecks made of high-strength latex. Compatible with both wet and dry gloves.

DOUBLE RIPSTOP PROTECTION

Double ripstop zones on elbows, knees and crotch protect high-stress areas while maintaining full freedom of movement, even on very long dives.

PREMIUM NEOPRENE BOOTS

3mm double-sided, cross-layered neoprene boots with fin strap stoppers, slip-resistant and protective. Very flexible boots for maximum comfort and dry fit.

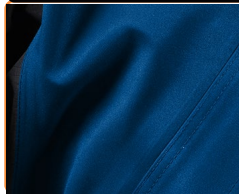

ROTATING VALVES

Our valves are rotating valves, which makes this different from all other suits.

RESCUE

RDS 301

BUILT FOR RESPONSE.
DESIGNED FOR EXTREME CONDITIONS.

The RDS-301 Rescue Drysuit is engineered for professionals operating in demanding rescue environments. Designed for durability, mobility, and rapid deployment in critical situations, on water, offshore, or flood response.

CORE FEATURES

RAIZO RIPSTOP ANTI-TEAR FABRIC

350 g/m² ripstop trilaminate for superior strength, durability and resistance.

FREEDOM OF MOVEMENT

Special pattern allows complete mobility and prevents excess air from moving inside the suit.

T-ZIP FRONT ENTRY

T-zipper protected by a flap from the shoulder to the hip.

ONE LARGE MODULAR LEG POCKET

Can be fitted using the multi-purpose molle system. Different pockets can be placed depending on profile and needs.

ADDITIONAL FEATURES

3MM NEOPRENE NECK SEAL

Soft neoprene neck seal provides additional thermal protection in this sensitive area.

DRY WRIST SEALS (HD LATEX)

HD bottleneck seals made of high-strength latex. Compatible with wet and dry gloves.

DOUBLE RIPSTOP PROTECTION ZONES

Reinforced zones on elbows, knees and crotch protect stress areas while maintaining full freedom of movement.

It’s very important that you choose your size carefully.
The drysuit must be comfortable and allow freedom of movement, remaining adapted to the body and avoiding excessive air spaces. It should be kept in mind that during the descent the ambient pressure will compress the suit, and therefore it must be able to regain its comfort with minimum inflation.

- A. WEIGHT: As close as you can accurately determine
- B. HEIGHT: From the top of your head to the floor
- C. CHEST: The front surface between the neck and the stomach
- D. WAIST: The part below the ribs and above the hips
- E. HIP: The circumference of the body at the buttocks
- F. TORSO: The trunk of the human body
- G. INSEAM: Inside leg. Measure from crotch to floor.

WETSUITS

Fullsuit

SPLENDOR

SP SERIES, SP-31 & SP-32 (3MM)

UNCOMPROMISED PERFORMANCE.
REFINED ENGINEERING.

Built for divers who demand more from every dive, the Splendor Series represents the pinnacle of DYNAMICNORD wetsuit innovation. Engineered with advanced materials & next-generation interior lining, this suit delivers exceptional warmth retention, flexibility, and long-term durability, without compromise.

KEY FEATURES

- BACK ZIP ENTRY**
Smooth, durable YKK back zipper for easy donning and doffing.
- FLEX-ZONE ARM PANELS**
Strategic flex channels on the arms reduce stiffness in thicker suits for easier movement and greater comfort underwater.
- 3D ANATOMICAL FIT**
Pre-shaped arms and legs follow natural body positioning for effortless movement.
- REINFORCED ABRASION PADS**
Durable protection in high-wear areas like shoulders, knees, and elbows.
- FRONT ZIP**
Front YKK zip provides extra comfort and relief when you're tired or need a more relaxed fit.
- COMPUTER STRAP ANCHOR**
Anti-slip grip zones on both wrists keep your dive computer securely in place.
- WRIST & ANKLE ZIP SEALS**
Zippers on wrists and ankles reduce water entry and make donning and doffing easier.
- MOLDED VELCRO COLLAR SYSTEM**
Precision-fit collar with controlled grip—no snagging, no discomfort.
- SEAM CONSTRUCTION**
Glued and blind stitched seams minimize water entry and maximize durability.
- CE CERTIFIED – CLASS A**
Tested and certified to CE standards Class A for maximum thermal protection in cold water conditions.

TECHNOLOGY HIGHLIGHTS

ADVANCED INNER HEAT SYSTEM
Dual-layer thermal response lining captures, converts, and reflects body heat, helping maintain warmth, improve circulation, and reduce energy loss.

HEAT-REFLECTIVE CARBON MATRIX-NEOPRENE
Carbon-based lining traps and redistributes heat efficiently for superior thermal efficiency and extended warmth.

LIMESTONE PERFORMANCE NEOPRENE
Premium-grade neoprene delivers superior insulation, elasticity, and long-lasting structural performance.

LEGACY

SL SERIES, SL-31 & SL 32

ENGINEERED FOR PERFORMANCE.
BUILT FOR COMFORT.

The DYNAMICNORD Legacy Series is designed for divers who demand performance, durability, and comfort in every dive. Built using premium limestone neoprene, this wetsuit series delivers a precise fit, excellent flexibility, and long-lasting reliability in both recreational and technical diving.

LIMESTONE NEOPRENE

We use premium limestone neoprene, a more sustainable and high-performance alternative to traditional neoprene.

KEY FEATURES

- REINFORCED ABRASION PADS**
Durable pads cover shoulders, elbows, and knees for added protection during high demanding dives.
- SEAMLESS STRETCH PANELS**
Single seamless panels with double zippered seals for easy donning and doffing.
- ULTRASpan & STRETCHTEC MATERIALS**
Flexible limestone neoprene panels ensure a snug fit and full range of motion.
- SOLVENT-FREE GLUE**
Assembled using a 100% green, solvent-free process.
- DESIGNED FOR TEMPERATURE RANGE**
Suitable for 50°F to 64°F (10°C to 18°C)
- BACK ZIP**
Smooth, durable YKK back zipper for easy donning and doffing.
- FRONT ZIP**
Front YKK zip provides extra comfort and relief when you're tired or need a more relaxed fit.

Shorty

ADAM

SE SERIES 2MM, MEN & WOMEN

VERSATILE. COMFORTABLE.
MADE FOR EVERY ADVENTURE.

The ADAM SE Shorty is designed for performance, comfort and freedom. Built with high-quality stretch neoprene, it is ideal for a wide range of water sports activities. Lightweight, flexible, and easy to wear, your go-to shorty for all water adventures.

KEY FEATURES

- STRETCH CONSTRUCTION**
Flexible neoprene for natural movement and all-day comfort.
- YKK BACK ZIP SYSTEM**
High-quality YKK back zipper for durability and easy use.
- LIGHTWEIGHT COMFORT**
Perfect for all water sports and extended wear.
- DURABLE & RELIABLE**
High-quality materials built to last and keep its shape.

Fullsuit

SHIELD

SH-SERIES

OUR SKIN PROTECTION SHIELD

The Shield fullsuit is built for performance, comfort, and protection. Engineered with premium 1mm neoprene and nylon, it's the perfect base layer for warm water activities.

KEY FEATURES

- FULL BODY PROTECTION**
1mm fullsuit made of neoprene and nylon blend for all-day warm comfort.
- YKK BACK ZIP SYSTEM**
Rear zipper design with easy-access pull strap for quick and convenient donning and doffing.
- ABRASION RESISTANT**
Reinforced printed abrasion pads on shoulders, knees, and elbows protect key areas.
- PREMIUM COMFORT**
Ultra-soft stretch nylon for flexibility, inside lining with plush for added warmth.
- PURE DESIGN CONCEPT**
Minimal seam design maximizes stretch and freedom of movement in the water.
- FOOT LOOPS**
Elastic foot straps prevent the suit from riding up when worn under a thicker wetsuit.

SH-11

FULLSUIT 1MM

Ultrathin, flexible fullsuit made of neoprene and nylon.

It's very important that you choose your size carefully.
The wetsuit should fit tightly to the body. The neoprene must always be in contact with the skin because air pockets will make you lose thermal power.

These size charts are valid for 3 mm, 5 mm and 7 mm wetsuits.

- A. WEIGHT: As close as you can accurately determine
- B. HEIGHT: From the top of your head to the floor
- C. CHEST: The front surface between the neck and the stomach
- D. WAIST: The part below the ribs and above the hips
- E. HIP: The circumference of the body at the buttocks
- F. TORSO: The trunk of the human body
- G. INSEAM: Inside leg. Measure from crotch to floor.

DYNASKIN FULLSUIT 3MM (BACK ZIP)

CORE FEATURES

FULL BODY PROTECTION

1-piece fullsuit providing full body protection from cold, sun, and marine elements

ADAPTED TO EVERY TEMPERATURE

Designed for use in warm waters or as a base layer under a wetsuit in colder conditions

4 WAY STRETCH

4-way stretch for superior comfort and flexibility

LESS BUOYANT

Less buoyant than neoprene – no extra weight required

IDEAL FOR

Ideal for scuba diving, snorkeling, and all watersports

YKK BACK ZIP ENTRY SYSTEM

- Easy entry and exit
- Improved comfort and streamlined fit

KEY FEATURES

DURABLE & ABRASION-RESISTANT OUTER LAYER

100% WIND-PROOF CONSTRUCTION

BREATHABLE MEMBRANE

HOLLOW FIBRE FLEECE INSULATION

DWR FINISH – WATER REPELLENT & FAST DRYING

4-WAY STRETCH FOR FULL MOBILITY

ANTI-CHAFING, ODOR-RESISTANT FABRIC

REINFORCED STITCHING FOR SALTWATER DURABILITY

NEUTRALLY BUOYANT (NO ADDED WEIGHT NEEDED)

UV SUN PROTECTION

DYNASKIN LONG PANTS

DARO long pants are equally suitable teamed up with a top, under a drysuit, or under drypants for kayaking and water activities. Cut with a high rear waist for comfort and warmth, provide protection from chafing when dry, and peace of mind knowing that if you do get wet you will still be warm. Long pants can be worn in combination with all other DYNAMICNORD tops.

DARO

DYNASKIN HOOD

designed
engineered
in germany

100% WINDPROOF. TOTAL COMFORT.
MAXIMUM WARMTH.

Your body loses heat quickly through its extremities, making a hood essential for extra protection in cold water. The DARO Hood keeps your head, ears and neck toasty warm and dry while wicking moisture away, so you can stay focused on your activity – not the cold.

CORE FEATURES

- FULL WINDPROOF PROTECTION**
100% windproof barrier blocks chill and keeps you warm.
- HEAD & EAR WARMTH**
Ergonomic fit covers head and ears for maximum warmth in cold conditions.
- MOISTURE WICKING.**
Moves moisture away from your skin to keep you warm and dry

- COMFORT FIT**
Flatlock seams reduce bulk and prevent chafing for all-day comfort.
- NECK COVERAGE**
Extended neck coverage seals out wind and cold for extra protection.

100% WINDPROOF. TOTAL COMFORT.
MAXIMUM WARMTH.

Your body's extremities lose heat rapidly, so they need extra protection from the cold. Keep your feet toasty warm and dry by wicking the moisture away. Use them under your dive wetsuit, boots, or under your favourite water sports boot to help keep the feeling in your feet and toes.
Stay Warm. Stay Dry. Stay in Control.

CORE FEATURES

- WINDPROOF PROTECTION**
100% windproof barrier blocks cold water and wind chill to keep your feet warm.
- THERMAL WARMTH**
Hollow fibre fleece traps warmth while wicking moisture away from your skin.
- COMFORT FIT**
Ergonomic design with flatlock seams reduces bulk and prevents chafing.

- WATER REPELLENT**
DWR finish sheds water and speeds up drying so your feet stay comfortable.
- EASY TO WEAR**
Stretch fabric for easy on/off and a secure, comfortable fit under boots or wetsuits.

MASKS

Masks

OMNI

ADULT MASK TG-50

TWO GLASS MASK. ULTRA-CLEAR.
SUPERIOR VISION.
DESIGNED FOR PERFECTION. BUILT TO LAST.

The TG-50 is our signature mask, engineered in Germany and crafted in Europe for divers who demand the very best. Ultra-clear lenses. Unmatched comfort. And an exclusive strap system that sets a new standard in fit and convenience. This is diving, elevated.

EASY CHANGE STRAP SYSTEM
OUR EXCLUSIVE. YOUR ADVANTAGE.

The TG-50 features a patented quick-release system where the strap is attached to the frame, not the skirt. Change straps in seconds. Get the perfect fit every time. No tools. No hassle.

FEATURES

ATTACHED TO THE FRAME
Strap connects to the frame, not the skirt — for a secure, stable fit and easy changes.

PERFECT FIT FOR YOUR FACE
Easily adjustable for a custom fit. Comfort that adapts to you.

ULTRA-CLEAR LENSES
Up to 94% light transmission for true color and clarity.

LOW VOLUME DESIGN
Easy to clear. Less drag. More efficiency.

PREMIUM SILICONE
Super-soft skirt and strap for all-day comfort.

COMFORT THAT PERFORMS

The low-volume, two-lens design sits closer to your face with less distance to the forehead, giving you a wider viewing angle and making the mask very easy and fast to drain. Available in two sizes.

SIZE S
For narrow faces

SIZE M
For regular and wider faces

OPTICIAN FRIENDLY
The polycarbonate lenses can be easily modified to correct your eyesight or can be completely replaced by your optician.

Made in ITALY

VISTA

ADULT MASK VM-50

TWO GLASS MASK
SEE MORE. SEE CLEARER. DIVE WITH CONFIDENCE.

Our ultra-clear mask gives you a sharper view of the seabed and more downward vision than conventional masks.

MIRROR LENS

At outdoors , the bright sunlight or glare can cause visual discomfort. Mirror lenses reflect most of the glare, reducing eye irritation and fatigue.

FEATURES

ULTRA-CLEAR LENS
Maximum underwater clarity.

DOWN VIEW
Enhanced downward vision.

SOFT-RELEASE BUCKLES
Easy and secure adjustment.

CORRECTIVE LENS COMPATIBLE
Fits prescription bifocal lenses.

SPRAY PAINT COLORS
Bold, stylish finishes.

FOLDABLE MASK
Allows compact storage of the mask

ULTRA LOW VOLUME
The mask lens sits closer to the user's eyes, greatly enhancing the field of vision for a clearer and more natural underwater view

COMFORT & FUNCTION

Soft silicone patches on each side of the nose pocket make equalization easy, while the molded frame ensures a comfortable fit.

ONE SIZE FITS ALL

Designed as a one-size mask to fit a wide range of divers comfortably.

OPTICIAN FRIENDLY

The polycarbonate lenses can be easily modified to correct your eyesight or can be completely replaced by your optician.

SNORKELS

Snorkels

OMNI

ONE DESIGN. THREE OPTIONS.
BUILT FOR EVERY DIVE.

Engineered for comfort, reliability, and performance, the DYNAMICNORD snorkel range delivers a refined breath experience for every diver. Designed with premium materials and functional innovation, these snorkels ensure smooth airflow, secure fit, and long-lasting durability, above and below the water.

FEATURES

SPLASHPROOF / OPEN / DRY TOP OPTIONS

Choose your preferred top design for different diving conditions and breathing styles.

HIGH-END SILICONE MOUTHPIECE

Anatomically designed with premium silicone for superior comfort and reduced jaw fatigue.

DUAL-MATERIAL BARREL

Durable outer structure combined with a soft inner section for flexibility and comfort.

COMFORTABLE HOLD SYSTEM

Secure and stable positioning with an easy-to-use clip system.

ADJUSTABLE SNORKEL HOLDER

Larger grip area allows quick attachment and removal from any mask.

MODERN STREAMLINED DESIGN

Clean, functional design built for performance and ease of use.

COMFORT FIT

Optimized ergonomics ensure a natural fit and effortless breathing.

LEFT / RIGHT WEAR COMPATIBILITY

Designed to be worn comfortably on either side of the face.

ENHANCED VALVE DESIGN

Bigger-improved valve structure for better performance and durability.

OT-10

OPEN TOP SNORKEL

Classic open design for unrestricted breathing at the surface.

Semi Dry Snorkel Splash Top

LUX

LX-40

SUPERIOR COMFORT. INNOVATIVE DESIGN.

The LX-40 snorkel combines innovative semi-dry splashproof features with premium comfort, offering a sleek and modern design for the ultimate snorkeling experience.

FEATURES

SEMI-DRY SPLASH TOP

Designed to minimize water entry, allowing nearly splash-free surfacing.

QUICK-DISCONNECT MOUTHPIECE

Premium, anti-allergic silicone mouthpiece for superior fit and comfort. Quick-disconnect design for ease of cleaning and storage.

ADJUSTABLE QUICK-RELEASE HOLDER

Easily attach and detach the snorkel from any mask. Quick-release mechanism for convenience.

FINIS

Technical Diving Fins

WAVETECH PRO

TF-80

REVOLUTIONARY PERFORMANCE.
ENGINEERED FOR TECHNICAL DIVING.

A revolutionary technical fin that redefines fin geometry, angles, surfaces, and thickness. Built with advanced hydrodynamic engineering, the Wavetech pro delivers maximum thrust, precision control, and stability across all diving conditions. Designed and tested for optimal responsiveness, it performs exceptionally in both recreational and technical diving, including advanced kick techniques such as frog kick and helicopter turns.

FEATURES

POWER-OPTIMIZED GEOMETRY

Redesigned blade geometry maximizes thrust while minimizing effort.

ADVANCED HYDRODYNAMICS

Aerodynamic surfaces with strategic strakes reduce turbulence and increase efficiency.

4-TIP STABILIZER SYSTEM

Blade tip design ensures straight tracking and superior underwater control.

BUNGEE STRAP WITH HEEL PAD

Dynamic spring strap with easy pull tab for fast, secure adjustment.

MULTI-KICK CONTROL

Supports frog kick, flutter, and backward kick.

CHANNELLED WATER FLOW

Prevents water spill, improves efficiency.

PERFORMANCE & CONTROL

- MAXIMUM THRUST WITH REDUCED EFFORT
- HIGH POWER-TO-WEIGHT EFFICIENCY
- SMOOTH, CONTROLLED PROPULSION

FENER

OPEN HEEL DIVING FINS

ESSENTIAL PERFORMANCE. RELIABLE CONTROL.

FENER is a practical and efficient open heel fin designed for divers seeking simplicity, durability, and dependable underwater performance. Its optimized blade design delivers consistent thrust with minimal effort and simple design makes it perfect for everyone.

FEATURES

- LONG BLADE OPEN HEEL DESIGN

Designed for diving activities, the long blade ensures steady propulsion and efficient energy transfer.
- SINGLE MATERIAL BLADE CONSTRUCTION

A robust and durable blade built from a single material, providing reliability and consistent performance in various diving conditions.
- SPOON EFFECT PERFORMANCE

The unique blade geometry and material combination create an effective spoon effect, allowing the fin to capture and channel water efficiently for improved thrust.
- TRADITIONAL STRAP & BUCKLE SYSTEM

Equipped with a classic adjustable buckle system, ensuring a secure fit, easy adjustment, and long-term reliability.

DYNAMICNORD

Made in ITALY

Made in ITALY

Fins

MEER

FULL FOOT DIVING & SNORKELING FINS

ENGINEERED LONG BLADES.
BUILT FOR UNDERWATER PERFORMANCE.

Full foot, long blade fins designed for powerful propulsion and expert-level control underwater.

FEATURES

SPOON EFFECT CENTRAL INSERT

Rubber insert in the blade achieves the spoon effect for efficient propulsion.

LIGHT & PERFORMANCE-FRIENDLY

Light fin cuts fatigue while blade length provides strong thrust for expert divers.

MATERIAL

Foot Pocket & Blade Insert: **TPR Thermoplastic Rubber**
Blade: **PP Polypropylene**

- Flexible, yet powerful blade
- Soft, comfortable fit

Fins

FLUT

FULL FOOT SNORKELING FINS.

ENGINEERED FOR DIVING AND SNORKELING.
BUILT FOR EFFORTLESS PERFORMANCE.

Long blade snorkeling fins that guarantee performance and minimize fatigue.

FEATURES

LONG BLADE DESIGN

Optimized blade length is ideal for snorkeling.

TWO STREAMLINED HOLES

Strategically placed blade holes near the foot pocket optimize water flow for effortless propulsion.

MATERIAL

Foot Pocket & Blade Insert: **TPR Thermoplastic Rubber**
Blade: **PP Polypropylene**

- Flexible, yet powerful blade
- Two blade holes streamline water flow

Fins

ARAT

OPEN HEEL FINS

ENGINEERED FOR ADJUSTABILITY.
BUILT FOR PERFORMANCE.

An advanced fin with unique structural features, designed for divers and snorkelers who need flexibility, adaptability, and reliable performance across multiple users and environments. Can be worn without boots

FEATURES

ADVANCED ADJUSTABLE FIT SYSTEM

Heel pocket strap delivers a secure, buckle-free adjustment matching the full foot fit.

EXTREMELY FLEXIBLE BLADE INSERT

Improves propulsion efficiency, maximizing energy transfer for smooth, strong thrust underwater.

PERFORMANCE-ORIENTED DESIGN

Built for snorkeling and diving activities with consistently robust performance.

MULTI-SIZE ADAPTIVE FOOT POCKET

Designed to fit many sizes in one, ideal for dive centers and boats. Reduces size inventory while ensuring comfort and stability.

DESIGNED FOR DEMANDING USERS

Ideal for experienced snorkelers and divers in varying environments and usage styles. Combines adjustability, control, and durability.

Fins

MAI

OPEN HEEL FINS

LIGHTWEIGHT. ESSENTIAL. EASY TO USE.

MAI is a comfortable and practical open heel fin designed for barefoot diving and snorkeling. Its smart strap system

FEATURES

MIDDLE BLADE OPEN HEEL FIN

Ideal for snorkeling with bare feet. Provides comfort, flexibility, and easy kicking.

SIMPLE & SMART STRAP SYSTEM

The strap starts at the heel and adjusts easily without buckles. Just select the right hole and attach it to the blade base for a secure fit.

LIGHTWEIGHT & BEGINNER-FRIENDLY

An essential and user-friendly fin made for all snorkeling beginners. Easy to wear, easy to adjust, and easy to enjoy.

Sizecharts
Fins

The best way to choose your size is to try the fin on.
Barefoot/thermal socks if it's a fullfoot or with your booties if it's an open heel.
You can also measure the length of your foot but keep in mind that every foot is different and is influenced by its width and height of your instep.

ORIN

HIGH PERFORMANCE DIVE LIGHT
COMPACT POWER. DEPENDABLE DEPTH.

Engineered for serious divers who need powerful illumination in a compact, durable design. The Orin delivers exceptional brightness and long runtime for every dive.

KEY FEATURES

HIGH OUTPUT LED
Up to 3000 lumens for powerful illumination

NARROW BEAM ANGLE
9° spotlight for long distance visibility

PWM SIGNAL PROCESSING
Constant brightness and efficient performance

PREMIUM 18650 BATTERY
Reliable power with extended runtime

TOUGH & DURABLE BUILD
Aluminum body with hard anodized finish

SHOCK & CORROSION RESISTANT
Withstands harsh underwater environments

WATER PRESSURE PROOF
Rated to 150 meters diving depth

EASY SIDE SWITCH
Quick access modes: High, Low, Strobe

TEEM

LTR-110

BUILT FOR TRAVEL.
DESIGNED FOR LONG HAUL

The Teem Trolley Bag is built for divers and adventurers who need maximum space, smart organization, and effortless mobility. Engineered with premium materials and smart features, it ensures your gear stays protected and easy to transport-anywhere in the world.

KEY FEATURES

DETACHABLE INNER DUFFEL BAG

Includes a detachable bag that can be used independently for maximum versatility.

VOLUME ADJUSTMENT ZIPPERS

Adjust the bag's volume as needed for more packing flexibility.

TWO FAST ACCESS ZIPPER POCKETS

Quick access pockets on the outside for your essentials.

ROBUST TELESCOPIC HANDLE

Sturdy and smooth telescopic handle for comfortable and effortless travel.

ROBUST 10CM WHEELS

Durable and oversized 10cm wheels for excellent stability and easy movement

YKK WATERPROOF ZIPPER

Premium YKK zippers for smooth operation and long-lasting performance.

SPECIFICATIONS

Detachable inner duffel bag for independent use.

Volume adjustment zippers for flexible packing.

Two zippered quick access pockets on the outside.

Net Mesh Bag

ABAAN

LNB-95

LIGHTWEIGHT. VERSATILE.
BUILT FOR DIVERS.

The Abaan Net Mesh Bag is the perfect solution for storing wet dive gear or sharing a boat with other divers without mixing equipment. Strong, practical, and made with durable mesh and YKK zippers, designed to keep your gear organized, rinse easily, and travel light.

KEY FEATURES

- LIGHTWEIGHT & DURABLE**
Lightweight mesh bag, easy to carry and perfect for travel and dive trips.
- YKK ZIPPER POCKETS**
High-quality YKK zippers for smooth, long-lasting performance.
- FAST ACCESS POCKETS**
External zippered pocket for quick access to your essentials. Extra zippered pocket inside to keep small items secure.
- WASH YOUR GEAR WITHOUT REMOVING**
Put the bag and all your gear in the water, rinse it, and lift it out, no need to remove equipment. Easy, quick, and hassle-free.
- EASY TO FOLD & STORE**
Folds flat for easy storage when not in use.

All our products have a two-year limited warranty

In countries that have different legal regulations, **DYNAMICNORD** will apply the national regulations in force. **DYNAMICNORD** warrants to the original purchaser for a period from the date of purchase that the product will be free from defects in materials and workmanship, if it receives normal use, proper care, and prescribed dealer service.

Usually it is limited to a period of 2 years from the date of consumer's purchase of the Product ("Warranty Period") unless otherwise specified. Products or parts with limited lifetime or limited stability may have a reduced warranty time. This will be mentioned in the product description and/or manual. The purchase date must be verified by a valid sales document (tax receipt or sales receipt) and the product registration form.

Warranty coverage does not extend to damage caused by improper use, improper maintenance, neglect, unauthorized repairs, modifications, accidents, fire, casualty, or normal wear. Cosmetic damage, such as scratches, nicks, and fraying are not covered under warranty except when the product is new, out of the original packaging. Warranty claims are only accepted upon return of the defective product along with the warranty certificate completed in full and signed by the Authorized **DYNAMICNORD** dealer, and accompanied by a valid sales document (tax receipt or sales receipt) showing the date of purchase. **DYNAMICNORD** reserves the right to refuse free service if the required documentation cannot be provided or if information is incomplete, illegible, or incorrect.

DYNAMICNORD rejects the payment of causally incurred consequential damages. Any repaired or replaced product (or part) does not extend the original warranty beyond the period of 2 years from original date of purchase.

DYNAMICNORD will refuse warranty service if the product was not purchased from an authorized **DYNAMICNORD** dealer as listed here, or not registered properly through product registration.

Defects or damages resulting from a failure in material or workmanship are covered by the **DYNAMICNORD** Warranty system.

Exceptions:

- Defects or damages caused by lack of or incorrect maintenance, or through negligence
- Defects or damage caused by heavy, unusual, or incorrect use
- Defects or damages caused by cleaning materials or other substances containing aggressive chemicals
- Defects or damages known or evident at the time of purchase of the product
- Defects or damages caused by improper assembly of the components
- Defects or damages caused by prolonged use of the product in chlorinated or polluted water
- Defects or damages caused by exposing the product to excessive temperatures, fire, or prolonged exposure to sunlight.

If you do not find the information you are looking for, please contact your local dealer or contact us directly through the support service.

Service & repair center

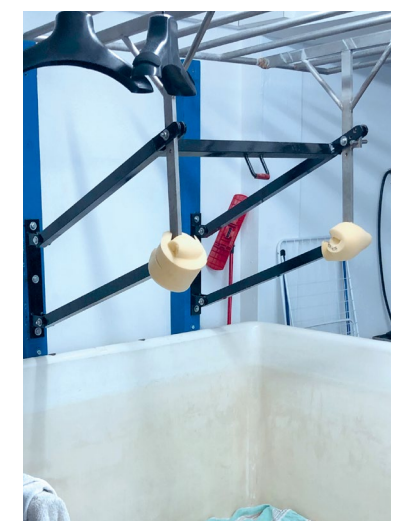

For us, the customer is the most important thing. Our after-sales service department dedicates maximum effort to resolving any incident with the greatest effectiveness and in the shortest possible time.

Located in Germany, our service center has extensive experience and follows very clear guidelines. We strive for quality of service and effectiveness of work to generate the fewest possible returns and most importantly, to execute the work swiftly.

We are aware that service time is a very important issue for the client, and we work every day to reduce execution times without affecting the quality of our service.
