FDS-2

Freedive Wetsuit 1.5mm 1 pc

Yamamoto Grade 39/45
100% CR neoprene / **Flex lamination for ultra 4-way stretch** / Super flexible and comfortable / **Anti-bacterial properties** / Low friction, reducing muscle fatigue / **Abrasion protection on chest, knees, elbows and buttocks** / Protected back zipper

Our Yamamoto 39/45 grade wetsuit is characterized by being extremely light and elastic in all directions, excellent for swimming, reduces fatigue, resistant, easy to take off and put on. Ergonomic cut and pre-shaped legs and arms. Its camouflage design is perfect for freediving and spearfishing. The chest, elbows, buttocks and knees are reinforced against abrasion by printing polyurethane dots. Its back zipper is protected by an outer flap to avoid tears and abrasion effect. Good antibacterial properties.

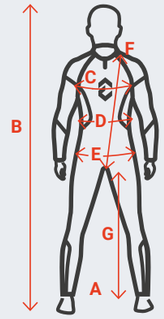
Sizechart **Wetsuits**

It's very important that you choose your size carefully. The wetsuit should fit tightly to the body. The neoprene must always be in contact with the skin because pockets of air bags will make you lose thermal power.

These size charts are valid for 3mm, 5mm and 7mm wetsuits.



A. WEIGHT: As close as you can accurately determine
B. HEIGHT: From the top of your head to the floor
C. CHEST: The front surface between the neck and the stomach
D. WAIST: The part below the ribs and above the hips
E. HIP: The circumference of the body at the buttocks
F. TORSO: The trunk of the human body
G. INSEAM: Inside leg. Measure from crotch to floor.

MASKS / SNORKELS

Double lenses, high vision angle, extra low volume, ultra-clear glass, and soft skirts. Seeing the world under water is our motivation for diving. Quality and comfort for your stay under water.

Our freediving snorkels are focused on simplicity and easy handling. Just breathe.

Available with GoPro mount

MC-15

Mask Two-Lens

Ultra-low Volume Mini-Mask / **Easy Equalization** / Silicone Skirt / **Two-button Tec Buckle**

This ultra-low volume mask is conceived and designed for free diving and spearfishing. Easy equalization due to its reduced size, and comfortable thanks to its soft silicone. The buckles are easy to remove thanks to its two Tec buttons. **Available in black or camouflage colors. Version with mirrored glass effect lens.**

AM-30

Mask Two Glass

Ultra-low volume mask /
Lens: Tempered glass /
Silicone Skirt and Strap /
Quick-Release Buckles /
Different colors available

Lightweight, ultra-low volume free dive mask. Its lenses are made of tempered glass. A comfortable mask thanks to its silicone skirt and strap and its quick release buckles. Choose your favourite color and enjoy the sea.

AM-30

Apnea Mask

AM-40

Apnea Mask

Ultra-low volume mask / **Lens: Tempered glass** / Reinforced nose / **Silicone Skirt and Strap**

Lightweight, ultra-low volume free dive mask. Its lenses are made of tempered glass. A comfortable mask thanks to its silicone skirt and strap and its quick release buckles. Reinforced nose for better grip.

AM-50

Apnea Mask

Ultra-low volume mask / **Enhanced peripheral vision** / Impact resistant antifog polycarbonate lens / **Silicone skirt and strap**

Lightweight, ultra-low volume free-dive mask. Its lenses are made of anti-fog polycarbonate and are impact resistant. We have also improved its peripheral vision. A comfortable mask thanks to its silicone skirt and strap.

SC-10

Snorkel Open-Top

Low-Profile J-snorkel / **Figure 8 retainer** / Snorkel tube with water transfer colors / **Silicone Mouthpiece**

This snorkel is conceived and designed for free diving and spearfishing. J-shaped, low-profile snorkel with 8-shaped retainer. Snorkel tube with water transfer colors and silicon mouthpiece. Available in black or camouflage colors.

FINS

Our apnea fins are designed for effortless dives at great depths. The more relaxed you are when reaching depth, the longer you can enjoy the dive. Efficient power transmission also makes you as fast and agile as a fish.

AF-70

Fins Freedive

Apnea Fin for free divers / **Foot pocket and blade made from rubber with a strong sole inlay** / Side rails of the blades allow them to bend over their entire length / **Blade connection designed to ensure maximum strength and durability**

The Apnea Fin was created and developed in our R&D department, where new technological concepts have been applied. The foot pocket provides full power transmission to the blade without any loss of energy.
The side rails of the blades are short, which allows them to bend over their entire length.
The blade connection system was designed to ensure maximum strength and durability in this stress area.
The angle is set at 27°, providing the best performance/effort ratio for free divers.

All our products have a two-year limited warranty

In countries that have different legal regulations, **DYNAMIC**NORD will apply the national regulations in force. **DYNAMIC**NORD warrants to the original purchaser for a period from the date of purchase that the product will be free from defects in materials and workmanship, if it receives normal use, proper care, and prescribed dealer service.

Usually it is limited to a period of 2 years from the date of consumer's purchase of the Product ("Warranty Period") unless otherwise specified. Products or parts with limited lifetime or limited stability may have a reduced warranty time. This will be mentioned in the product description and/or manual. The purchase date must be verified by a valid sales document (tax receipt or sales receipt) and the product registration form.

Warranty coverage does not extend to damage caused by improper use, improper maintenance, neglect, unauthorized repairs, modifications, accidents, fire, casualty, or normal wear. Cosmetic damage, such as scratches, nicks, and fraying are not covered under warranty except when the product is new, out of the original packaging.

Warranty claims are only accepted upon return of the defective product along with the warranty certificate completed in full and signed by the Authorized **DYNAMIC**NORD dealer, and accompanied by a valid sales document (tax receipt or sales receipt) showing the date of purchase. **DYNAMIC**NORD reserves the right to refuse free service if the required documentation cannot be provided or if information is incomplete, illegible, or incorrect.

DYNAMICNORD rejects the payment of causally incurred consequential damages. Any repaired or replaced product (or part) does not extend the original warranty beyond the period of 2 years from original date of purchase.
DYNAMICNORD will refuse warranty service if the product was not purchased from an authorized **DYNAMIC**NORD dealer as listed here, or not registered properly through product registration.

Defects or damages resulting from a failure in material or workmanship are covered by the **DYNAMIC**NORD Warranty system.

Exceptions:

- ⟶ Defects or damages caused by lack of or incorrect maintenance, or through negligence
- ⟶ Defects or damage caused by heavy, unusual, or incorrect use
- ⟶ Defects or damages caused by cleaning materials or other substances containing aggressive chemicals
- ⟶ Defects or damages known or evident at the time of purchase of the product
- ⟶ Defects or damages caused by improper assembly of the components
- ⟶ Defects or damages caused by prolonged use of the product in chlorinated or polluted water
- ⟶ Defects or damages caused by exposing the product to excessive temperatures, fire, or prolonged exposure to sunlight.

If you do not find the information you are looking for, please contact your local dealer or contact us directly through the support service.

PRODUCT CARE & MAINTENANCE

Service & repair center

For us, the customer is the most important thing. Our after-sales service department dedicates maximum effort to resolving any incident with the greatest effectiveness and in the shortest possible time.

Located in Germany, our service center has extensive experience and follows very clear guidelines. We strive for quality of service and effectiveness of work to generate the fewest possible remainders and most importantly, to execute the work swiftly.

We are aware that service time is a very important issue for the client, and we work every day to reduce execution times without affecting the quality of our service.
